PTFE Hazardous Chemical Bottle Pourers

These hazardous and corrosive chemical pourers are manufactured fully from PTFE and have totally inert pouring surfaces, even the neck-sealing ring is encapsulated in PTFE. The unique design allows direct and controlled pouring due to the incorporated breather vent. The bottle pourers come in four sizes to fit standard reagent bottles with neck sizes of 45mm, 38mm, 32mm and 30mm. A captured PTFE closure ensures contaminant free contents when not in use. (Bottle not included)

Description	Stock #	Case Pk	Price/Cs
45 mm PTFE Bottle Pourers	310374-0001	1/cs	\$51.44
32 mm PTFE Bottle Pourers	310374-0002	1/cs	\$51.44
30 mm PTFE Bottle Pourers	310374-0003	1/cs	\$51.44
38 mm PTFE Bottle Pourers	310374-0004	1/cs	\$51.44
