Hazardous Labels, "Biological Substance, Category B" Printed Laboratory Labels, UN 3373

These 2.5" x 3" hazardous labels are clearly printed with the text "Biological Substance, Category B" and are printed on gloss paper with the "UN 3373" code also clearly displayed. Biological substance labels are required for all packages containing human specimens including excreta, secreta, blood and its components, tissue, and tissue fluids being transported for diagnostic or research purposes. These printed laboratory labels are printed on premium semi-gloss paper with a superior smooth finish that is scratch and scuff resistant, and are backed with a cold temperature, permanent adhesive which bonds to a wide variety of substrates.
