

Benchguard Absorbant Liners

BenchGuard and BenchGuard Extra are used in a variety of laboratory, industrial, academic and research and development environments where a safe, reliable spill mat is needed. BenchGuard liners have highly absorbent white upper surfaces that contain spills and a tough polycoated base to protect your work surface. Standard BenchGuard absorbs up to 400ml per square meter, while the competition absorbs only 274ml or less! For your most demanding applications choose BenchGuard Extra which absorbs up to 800ml per square meter. BenchGuard and BenchGuard Extra are available either in pre-cut sheets (wallet) or a 50 meter roll dispenser that has a built in cutting edge for easy cutting to the exact length that you need.

*Factory Ship Item, allow 3 to 5 days for shipment.
