

Lab Bottles, 24 Hour Urine Collection, HDPE Orange Bottle, Spout Cap

The Uritainer is a conventional style urine bottle available in 2 sizes: 2.5L and 3.5L. The unique snap valve pour spout is easily popped open and offers dripless pouring. This snap valve also offers dripless pouring, reduces risks of aerosol contamination when pouring, and eliminates splashing and exposure to hazardous body fluids.

It is also chemically resistant, features a large central handle and can be subjected to freezing, thawing and EtO gas sterilization without causing changes in materials or physical appearance.
