

Graduated Cylinders, Polypropylene Short Form Graduated Cylinders

These short form (squat) graduated cylinders are made of polypropylene and feature molded, blue graduations that make measurements easy to read. The design of these cylinders allows for increased stability which reduces spills and accidents. The self-draining bases drastically reduce water collection in an automatic lab washing machine, reducing contamination issues. These cylinders offer safety, durability, chemical and temperature resistance, and an anti suction base that can be used on wet or dry surfaces. The base of the 4 liter cylinder unscrews making cleaning and storing easier. The 100 ml cylinders come with 5 per box, while the 250 ml, 500 ml, 1000 ml, and 4 L are each supplied with 1 cylinder per box. All cylinders are bagged and marked individually inside the boxes.

Description	Stock #	Case Pk	Price/Cs
100 ml Graduated Cylinders, Polypropylene Short Form Graduated Cylinders	537835-0100	5/cs	\$55.70
250 ml Graduated Cylinders, Polypropylene Short Form Graduated Cylinders	537835-0250	1/cs	\$14.90
500 ml Graduated Cylinders, Polypropylene Short Form Graduated Cylinders	537835-0500	1/cs	\$19.27
1000 ml Graduated Cylinders, Polypropylene Short Form Graduated Cylinders	537835-1000	1/cs	\$25.21
4 L Graduated Cylinders, Polypropylene Short Form Graduated Cylinders	537835-4000	1/cs	\$226.78
