

## Laboratory Equipment, BenchRocker 3D Gyratory Rockers

The BenchRocker 3D Gyratory rockers are designed to provide the precise speeds and tilt angles required for a broad range of molecular and biological mixing applications. The user can adjust both parameters to match the vessel size and the volume of liquid being mixed, yielding optimum results.

The rocking speed and tilt angle are both easily adjustable in seconds. At low speeds and minimal tilt angles, this rocker provides a gentle wave effect for non-foaming mixing, as is required for most blot washing and gel work. When set to higher speeds and more extreme tilt angles, they produce aggressive agitation for vigorous sample mixing. The 3D BenchRocker provides a "gyratory" motion.

The BenchRocker 3D can accept stackable platforms, which are sold separately (clearance = 2.75 in.). All platform mats are autoclavable. Has maintenance free brushless motors and is safe for use in cold rooms and incubators.

| Description                                       | Stock #            | Case Pk | Price/Cs |
|---|--------------------|---------|----------|
| 115V BenchRocker 3D Gyratory Rocker               | B3D2300            | 1/cs    | \$786.25 |
| 230V BenchRocker 3D Gyratory Rocker               | B3D2300-230        | 1/cs    | \$786.25 |
| 12 x 12" Stacking Platform w/ Flat Mat            | BR1000-STACK       | 1/cs    | \$91.80  |
| 12 x 12" Stacking Platform w/ Dimpled Mat         | BR1000-STACK-D1/cs |         | \$95.20  |
| - LaBungee Elastic Tie Downs w/ Hooks (Pack of 4) | B0718              | 1/cs    | \$24.65  |
| 12 x 12" Flat Mat                                 | BR1000-FLAT        | 1/cs    | \$30.18  |
