

## Pipettes, Volumetric Pipettes, Class B Glass Volumetric Pipettes, Color Coded

For general laboratory work, like diluting various reagents and specimens, as well as performing titrations, opt for these reusable class B glass volumetric pipettes. Offered in sizes ranging from 1 ml to 100 ml, these pipettes each feature a color strip for easy identification with the capacity clearly labeled on the bulb of the pipette. Place your order below for the most commonly used volumetric pipette in laboratory work. Case packs of 12 in sizes from 1 ml to 10 ml come in a cardboard box with a styrofoam insert holding all 12 pipettes in place, in individual slots. Case packs with sizes from 20 ml to 50 ml come in two separate cardboard boxes with styrofoam inserts each holding 6 pipettes in individual slots. The 100 ml pipettes come in 6 cardboard boxes with two pipettes in each, placed in slots in styrofoam inserts.
