

Microscopy Supplies, Styrene Slide Storage Trays

These styrene plastic slide storage trays can hold up to 20 standard size 75 x 25 mm (3 x 1") glass microscope slides, safely and conveniently organizing and storing your slides for future reference and use. The slide storage trays are made up of a colored styrene compartment, available in 5 unique colors (or assorted colors), and clear styrene doors/base which can be purchased separately. The color-coded plastic compartment holds your glass microscope slides, with numbered spaces for easy identification. The transparent doors can be used to cover the slides, or can be swung behind the tray, and allow a clear view of the slides with or without an optical bar code reader. To remove microscope slides from the tray, simply press gently on one end of the slide. The slide storage trays are stackable for convenient storage, and can be used with temperatures ranging from -80 °C to +80 °C.

Note: Glass microscope slides not included; may be purchased separately.
